

## **UCAS COVID 19 contextual statement**

During lockdown students received their lessons via show my homework, two lessons per subject per week, for 8 weeks. In June & July they received face to face tuition for six out of fifteen of their lessons supported by show my homework lessons, on average 75% of students were able to attend these sessions.

Since September we have not had any further lockdown at a school level and we are now transitioning to Google classroom, so that we can provide interactive video lessons if required.

October / November update: We have now had a significant increase in students isolating due to COVID-19 restrictions. Approximately 10% of students have been isolated over this period. Equally, 5% of staff have also had to isolate and switch to delivering online learning.
