

CARISBROOKE COLLEGE PROSPECTUS 2021-2022

Carisbrooke College
ASPIRE AND ACHIEVE

"I was a bit scared about moving up to Carisbrooke College but everything has been fine and I've made lots of friends."

Student

Isle of Wight Education Federation

It gives me great pleasure to welcome you to the Isle of Wight Education Federation and I hope you enjoy reading our prospectus for Carisbrooke College.

I am honoured to work as Executive Headteacher for our Federation, which is an extensive learning community spread right across Newport, at the heart of the Isle of Wight.

In my role, I work very closely with Karen Begley, Executive Deputy Head and Head of Carisbrooke College, Dave Mumford, Deputy Headteacher and

Head of The Island VI Form and Nick Krista, Deputy Headteacher for the Federation.

We are increasingly proud of the close collaborative working relationship that has developed between all three establishments, where we are able to share a wealth of educational expertise for the benefit of over 2,000 students. A large number of students choose to join us

from all over the Isle of Wight and that simple fact should tell you something about what a great experience it is to be a part of our family of schools.

Choosing a school is an important decision and this prospectus is only part of that process. To get a real feel for our school, talk to our students and talk to our staff. Most importantly, decide whether this learning community feels right for your child, whether they will make progress here, whether they will be happy here.

We are confident that your decision will be an easy one and we look forward to welcoming you very soon.

Matthew Parr-Burman
Executive Headteacher and Head of Medina College

Isle of Wight
Education Federation

Welcome

Welcome to Carisbrooke College. We are a smaller than average secondary school, fortunate enough to have had the benefit of moving in to a brand new purpose-built school on our well-established site.

Our ethos is to relentlessly pursue outstanding teaching, learning and pastoral care, whilst maintaining the focus on the needs of the individual student. Our aim and expectation is that every student who is part of our community will achieve their best in all aspects of school life.

Outstanding education is only achieved by working in close partnership with parents and carers. We want you to play a full and active role in school life, supporting your child and working with us to ensure success. We welcome collaboration and feedback about what we do well and where we could improve. Together, we can ensure each student leaves us as an educated, articulate, young adult prepared to embrace the world and the challenges ahead.

I was Head of School at our sister school, Medina College, for four years, Executive Deputy Headteacher for three years and a leader within our Federation since it started in 2011. As of 1st June 2020, we took the decision to lead a fresh approach to school improvement, build on the foundations that have been laid at both schools and use the personal experiences that we have as leaders to have an impact on those areas that still need improvement. Therefore, I became Head of School at Carisbrooke College on that date.

I look forward to working in partnership with you to ensure the very best for your children.

Karen Begley
Executive Deputy Headteacher and Head of Carisbrooke College

About Carisbrooke

Carisbrooke College is a dynamic and forward-looking learning community in the west of Newport, Isle of Wight. The campus is situated in extensive grounds which look south towards Carisbrooke Castle.

In Spring, 2019, Carisbrooke College moved in to its new purpose-built building. This specially designed facility houses 600 students and associated staff as well as the Einstein Centre for 16 young people.

Carisbrooke provides state of the art facilities. We have a good provision of English, maths, languages and humanities classrooms, all with their own dedicated areas. We provide specialist, well equipped spaces for science, creative arts, technology and computer science, including four dedicated ICT suites. In addition we have a well stocked library, specialist drama studio and a multi-purpose hall with retractable seating. There are extensive sporting facilities, including a sports hall and all of the large playing fields associated with the previous building. In short, we have everything needed for an excellent education at the heart of the community.

All classrooms have state-of-the-art air management systems, lighting and large format displays to make them the perfect environment for learning, whilst ensuring energy efficiency to assist in the reduction of our carbon footprint. There are interactive TVs in every classroom to assist learning.

Students come to Carisbrooke from all across the Island

and we have close links with our feeder schools. We run a number of initiatives throughout the year to directly engage primary school children with subjects such as arts, sciences and technology; in particular we work with Year 5 and 6 children to prepare them for the transition to secondary school. One of our priorities is to strengthen the curricular, pastoral and extra-curricular links with our local primaries.

We encourage parents and carers to be involved in every aspect of their child's education at Carisbrooke. This partnership helps us achieve the highest all round standards for your children and we will do all we can to enthuse, motivate and support them during their time with us. We have an active Parent Voice group and encourage parents and carers to get involved.

Core Values - ASPIRE

We are a learning community which embraces opportunities for all our learners by securing high quality learning and teaching. We aim for all our students to achieve their full potential, both as students and as considerate global citizens of the future.

Ambition

We are ambitious for ourselves and our futures.

Success

We celebrate all our successes.

Progress

We make good and outstanding progress.

Inspiration

We inspire each other to strive for our best.

Respect

We are polite, tolerant and kind to everyone.

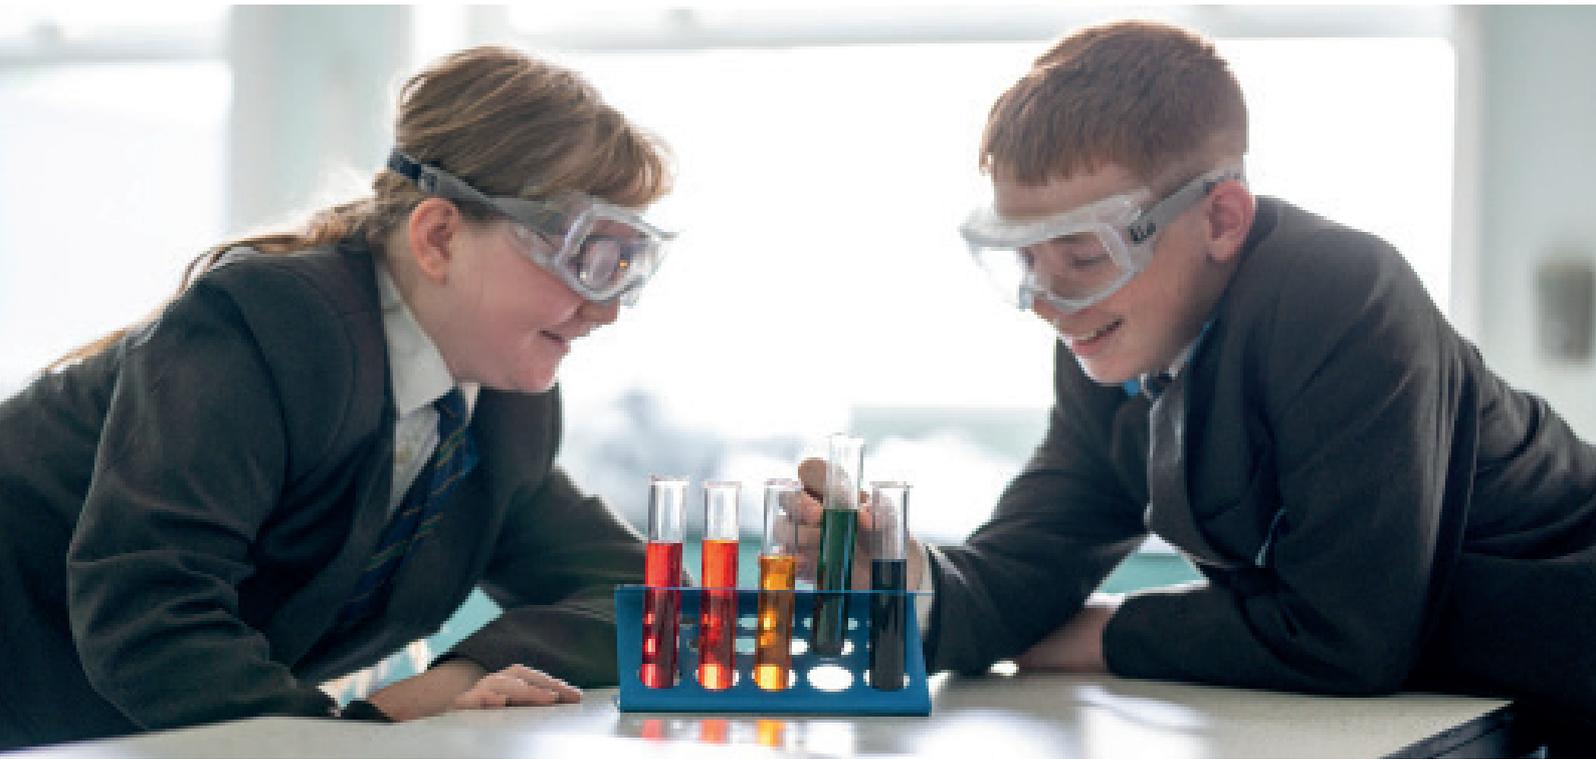

Excellence

We are excellent in all that we do.

"I am proud to be a member of staff at Carisbrooke College. I would recommend it to parents, students and prospective staff."

Staff Member

Our Curriculum

At Carisbrooke College, we provide a broad and balanced curriculum because we understand that students need to be engaged in their learning and able to follow courses in which they are interested, if they are to achieve their potential.

Key Stage 3

Throughout Key Stage 3, all students receive English, mathematics and science tuition. Additionally, students are taught modern foreign languages, history, geography, religious education, technology and computing. All students have weekly timetabled PE and creative arts lessons (drama, music and art). Where necessary, students may have a tailored curriculum which increases the amount of literacy support they receive in order to prepare them for Key Stage 4.

Personal, Social and Health Education (PSHE) is delivered through our bespoke social studies programme, a tutor lesson, assemblies, plays and other organised activities.

Key Stage 4

We currently deliver our Key Stage 4 curriculum to Years 10 and 11 with students continuing their studies in English, mathematics, science and PE, but also having an opportunity to choose four additional subjects. These are chosen in January of Year 9 and include subjects they have already experienced, as well as new areas of study, such as health and social care. All students have

the opportunity, and are encouraged to complete, the English Baccalaureate in Key Stage 4, which involves studying English, mathematics, science, a modern foreign language and either history or geography.

Key Stage 5

The Island VI Form, part of the Isle of Wight Education Federation (IWEF), in the heart of Newport, offers a full range of Level 3 academic courses; for more information see our separate VI Form prospectus.

Extra-Curricular

Many of the things we remember about school happened outside the classroom. Carisbrooke College offers a wide range of extra-curricular activities to enhance the learning experience for students.

We believe that to help students become well-rounded members of their community, they should be exposed to a wide variety of opportunities beyond the classroom. As such, our staff are fully committed to residential trips, which have included Paris, New York, Poland, China, Bangladesh and Washington D.C. For this, Carisbrooke College has been recognised by the British Council and awarded the 'International School Award'.

The PE department provides clubs for all interests ranging from football to ultimate frisbee.

In addition to the wide variety of clubs on offer, our students raise a great deal of money for charities and are heavily involved with Walk the Wight and other excellent causes.

Duke of Edinburgh Award

From the age of 14, there is an exciting opportunity for students to start their journey through the Duke of Edinburgh Award Scheme. This can be continued at The Island VI Form, where dedicated DofE staff will support students through their award. The Duke of Edinburgh Award Scheme is a charity that aims to create a world where young people can reach their full potential, whatever their circumstances.

Further information about the scheme can be found at www.dofe.org

The Einstein Centre

At Carisbrooke College we accommodate the Einstein Centre, an Autistic Spectrum Resource Centre.

At the Einstein Centre, we aim to provide a happy, calm and nurturing environment for up to sixteen students with autism and other social and emotional difficulties.

All students are expected to eventually access the mainstream curriculum for most of the school day. Consequently, the unit is supported by qualified members of staff who work to integrate the students into the mainstream curriculum. The support we provide is tailored to the individual student and their needs.

We also provide social skills and life skills sessions in the centre. These enable student to interact with their peers in the school environment and build confidence for when they leave school. The sessions are integrated within their timetable, whenever possible.

We are very fortunate to have some amazing facilities within the centre, including:

- A large, modern classroom and working area
- A crafts and games room
- A resource room
- A kitchen/life skills room
- A calm/sensory area
- Dedicated toilets
- Outside space

SEND Special Educational Needs & Disabilities

The Isle of Wight Education Federation is committed to providing an inclusive education for all young people, regardless of ability, gender, language, ethnic or cultural origin. We work with a wide variety of agencies and individuals to focus on improving outcomes for all students.

The Federation has a specialist SEND Coordinator (SENDCo) with a very experienced team of Learning Support Assistants. Support is given in a variety of ways, ranging from in-class support to individual and small group intervention sessions, depending upon need, to facilitate progress.

We aim to:

- Raise the standards of attainment for all students with SEND, through a broad, balanced and relevant curriculum that is differentiated to meet individual learning styles.
- Establish robust systems which ensure all students with SEND make progress to the best of their ability, with a target of at least three levels of progress by the end of each key stage.
- Create a climate where all staff are aware that they are responsible for students with SEND and plan their lessons accordingly.

The college is well equipped to meet the needs of disabled students. Students requiring wheelchair access are well catered for, with all curriculum areas accessible. The college is also well-provided for in relation to accessible toilets.

Within the guidelines of the Disability Equality Scheme, the college is committed to:

- Promoting equality of opportunity between disabled people and others.
- Eliminating discrimination that is unlawful under the Disability Discrimination Act, 1995.
- Providing positive attitudes towards disabled people in public life.
- Taking steps to meet disabled people's needs, even if this requires more favourable treatment.

“Staff have positive relationships with pupils and know them well. Pupils feel safe. They are confident that they have a trusted adult they can go to if they are worried in any way.”

Ofsted

Pastoral Support and Safeguarding

Across the Isle of Wight Education Federation, we pride ourselves on our secure and efficient safeguarding procedures.

Our pastoral system focuses on meeting the needs of each individual student. Every student is assigned a tutor who meets them on a daily basis and is able to offer support and guidance throughout their time within the Federation. Our Year Office teams support and guide students on matters relating to personal development, behaviour and welfare. Our learning community is well-ordered and safe.

The work of teachers and faculties is also kept under regular review so that our students are given the best opportunities for success. We firmly believe that it is our job to remove barriers to progress and we want our students to develop the confidence and maturity required for the next stage in their lives. We are proud of our inclusive ethos which supports our work with students of all abilities and from a variety of backgrounds.

High rates of attendance are intrinsically linked to high rates of achievement. Students will only achieve their best if they come to school every day. Securing high levels of attendance is a high priority. The expectation is that all

students aim for 100% attendance and we proactively work with students, parents and carers to achieve this.

We are committed to safeguarding and promoting the welfare of children and we expect all staff and volunteers to share this commitment. We are dedicated to ensuring that consistent, effective safeguarding procedures are in place, across our colleges, to support families, young people and staff.

All eligible staff and volunteers are required to undertake relevant safeguarding training and this is regularly reviewed by our Designated Safeguarding Leads to ensure it is up to date. A training database for all staff and volunteers is also maintained.

The Whole Student

We recognise that our students have individual needs and we know how important it is that students are safe, healthy and happy at school.

We have a team of specialists to provide the appropriate guidance for students and to put in place individual plans to support students' needs. In addition, we work closely with a number of external agencies to provide high quality care, guidance and support on an individual basis.

Information, guidance and support

Throughout their educational years, all students have access to a variety of career-related activities and events to help them explore and investigate options available to them, both locally and nationally. We feel it is vital to allow students access to different experiences that will help them to make informed choices about their future. Our careers programme includes activities such as work experience, mock interviews, take your child to work day, visits to further and higher educational establishments and different employer visits, as well as contact with various speakers and visitors across the year.

College uniform

The college has a strict uniform code to ensure that we have a purposeful and professional working environment. All students wear a shirt, tie and a smart blazer around the college at all times.

Student Council

Our aim is to give students a clear, strong voice. We encourage the students to be proactive and all students have the opportunity to be a part of our Student Council groups who genuinely make a difference in the college. These groups contribute to the continuing development of the rewards system, peer mentoring programme and all areas of the college, from classroom to canteen.

Rewards

Students are awarded achievement points throughout the year for demonstrating positive behaviour both in and outside of lessons whilst at the college. They are also recognised for their positive contributions towards their local community and outside of school successes. We celebrate these achievements in a number of ways, including certificates, prizes, good news postcards and end of year reward trips.

Independent Learning

Independent learning (homework) promotes learning beyond the college day as an essential part of good education and a high precursor to lifelong learning. Independent learning reinforces classroom learning and helps young people develop skills, attitudes and the habits of enquiry and investigation.

All students are set regular and meaningful independent learning, which aims to raise standards of attainment and achievement by consolidating knowledge gained in the classroom.

In years 7 and 8, we expect students to have about five hours of homework per week, which increases in amount as they progress towards their key stage 4 examinations.

Global Community

At Carisbrooke College we see ourselves as part of a global community. As such, we believe it is important to provide global language study, as well as European. Therefore, in addition to French, we offer the study of Mandarin. With Chinese the most widely spoken language in the world, the study of Mandarin at Carisbrooke aims to both unlock the mysteries of this ancient language for learners in a clear and simple way whilst also infusing lessons with a cultural and political awareness of China as a nation.

Creative Arts Provision

The arts at GCSE are immensely popular and large numbers of students benefit from our dedicated music classroom and rehearsal rooms. Our visual arts classrooms are well equipped, visually inspirational spaces. The drama department is currently preparing for our first pantomime in our new hall, which promises to be an impressive collaboration across the creative arts faculty.

Equal Opportunities

We are committed to creating an environment in which all members of the college community are equally valued and have equal opportunity to achieve their full potential in a culturally diverse society.

We are committed to providing an education which meets the needs of all students irrespective of gender, ethnicity, ability, impairment, religion, social and family circumstances.

We aim to:

- Promote positive attitudes towards all members of society, with a clear code of conduct about respect for individuals.
- Provide a curriculum that promotes equality of access and is appropriate for all students.
- Provide a curriculum which reflects the culturally diverse society to which students belong and of which they will become adult members.
- Use teaching strategies which are most effective in promoting equality and generating a positive images of the individual and other people in society.
- Ensure equitable distribution of praise, rewards and responsibilities to encourage an atmosphere of tolerance and cooperation.
- Encourage all members of the school to use appropriate, non-stereotypical language.

“I feel very lucky that my daughter is able to attend this school and am thrilled with how well she has settled in.”

Parent

The Island VI Form

Carisbrooke College has a shared post-16 provision at The Island VI Form. The Island VI Form is the largest provider of A Levels on the Isle of Wight and has an excellent track record of success.

After GCSEs, many students will naturally progress on to VI Form education. At The Island VI Form, students have access to a wide range of A Levels, Level 3 programmes and BTEC qualifications. Situated in the centre of Newport, the campus offers an ideal stepping stone between school and higher education or employment. Students are encouraged to become active, inquisitive and independent learners, manage their own time and develop the study skills needed for university or their future careers.

The Island VI Form building has great character and has been fully equipped for modern post-16 learning. Due to significant financial investment, classrooms have recently been redecorated and a vast programme of additional works is underway to further enhance the learning environment.

Students benefit from four large independent study spaces, computer rooms, a gym, a cafe, on-site parking and subject specific facilities, such as science laboratories, art studio spaces and a music recording studio.

In the relatively short time students are at the VI Form, they will be making decisions which will have a huge

impact on their future career. Dedicated Student Support Services Officers, Mentors and the Careers Team ensure that students receive the advice, guidance and support they need.

For more details about The Island VI Form, please see the website at: www.theislandviform.org.uk

Admissions and Applying for a place

Carisbrooke College is a foundation school and is part of the Isle of Wight Education Federation (IWEF), which also includes Medina College and The Island VI Form.

The college takes students of all abilities and aptitudes aged 11-16. The Island VI Form is shared with our partner school in the Isle of Wight Education Federation, Medina College. The Governing Body is the admission authority with responsibility for admissions and administering appeals.

Parents who are considering applying for a place at Carisbrooke College for their child are warmly invited to visit the college; this is not a requirement of the admissions process. The college's Admissions Team will be pleased to provide information by letter or telephone, or to meet with parents to discuss possible applications. The college will have an admission number of 120 students for year 7 in 2022.

Carisbrooke College takes part in the Isle of Wight Council's coordinated admissions scheme. For admission to all schools for September 2022, the Local Authority is required to operate a coordinated admissions scheme and applications for all school places must be made on the common application form provided by the Authority,

with the opportunity to nominate up to three schools, ranked in order of preference. Alternatively, you can complete the application form online at: www.iwight.com/schooladmissions

Once completed, the application form (including if you apply online) must be received by School Admissions at County Hall by midnight on 31 October at the very latest.
