Results Information for Parents

The key points for parents/carers to have in mind before results day are:

- Talk through the things that might happen before results day, and have a plan in mind for each case. It's hard to make good decisions on an emotional day, but easier to consider things dispassionately beforehand. Consider how plans might need to change if results are much worse or much better than expected and have some constructive conversations about it over the next few weeks.
- Be ready to support your child and take any action that may be necessary; you do not have to accompany them to school but you need to be available for them to talk to. If your child is not available to collect results in person, they will receive them by post. We cannot supply them to anyone other than the candidate themselves unless the candidate has given us written permission to do so in advance.
- If you cannot be available to support your child, please make an arrangement with a friend or relative to do so on your behalf.
- Please note that we do not accept card payments for post results services so they will need to be able to pay in cash or with a cheque before we can send them to the awarding body.
